New Issues. If the Company shall at any time or from time to time issue or sell any Dilution Instruments at a price per Dilution Instrument (the "New Issue Price") that is less than the Ratchet Share Price then in effect as of date of the proposed sale or issuance (the "Relevant Date") (treating the price per Dilution Instrument as equal to (x) the total sum paid for such Dilution Instruments plus any additional consideration payable (without regard to any anti-dilution adjustments) upon the conversion, exchange or exercise of such Dilution Instruments divided by (y) the number of Shares initially underlying such Dilution Instruments), then and in each such case the Ratchet Share Price then in effect shall be adjusted to equal the New Issue Price (as adjusted for any sub-divisions or other events that are dilutive of Share value and for which no adjustment is otherwise made under this Article 17 or any consolidations) in accordance with Article 18.

Timing for New Issues. Such adjustment shall be made whenever such Dilution Instruments are issued in accordance with Article 18 as follows (x) in the case of an issuance to the Shareholders of the Company, on a date immediately following the close of business on the record date for the determination of Shareholders entitled to receive such Dilution Instruments; and, (y) in all other cases, on the date (the "Issue Date") of such issuance; provided, however, that the determination as to whether an adjustment is required to be made pursuant to this Article 18 shall be made immediately or simultaneously upon the issuance of such Dilution Instruments, and not upon the subsequent issuance of any security into which the Dilution Instruments convert, exchange or may be exercised.

Price Calculation for New Issues. In case at any time any Dilution Instruments shall be issued or sold for cash, the consideration received therefor shall be deemed to be the amount received by the Company therefor, without deduction therefrom of any expenses incurred or any underwriting commissions or concessions or discounts paid or allowed by the Company in connection therewith. In case any Dilution Instruments shall be issued or sold for a consideration other than cash, the amount of the consideration other

than cash received by the Company shall be deemed to be the fair market value of such consideration, without deduction therefrom of any expenses incurred or any underwriting commissions paid or allowed by the Company in connection therewith, as determined mutually by the Board and the Ratchet Shareholders or, if the Board and the Ratchet Shareholders shall fail to agree, at the Company's expense by an independent appraiser chosen by the Board and reasonably acceptable to the Ratchet Shareholders.

Adjustment. If the Ratchet Share Price of a Ratchet Shareholder is subject to an adjustment pursuant to an occurrence of any event described in this Article 18 such adjustment shall be effected through the reduction of that Ratchet Shareholder's Ratchet Share Price through the issuance of such number of additional Equity Shares to the Ratchet Shareholder ("Adjustment Shares"), at a subscription price per Adjustment Share equal to the Lowest Permissible Price as calculated in accordance with the following formula:

$$AS = (RAS \times RSP / NIP) - RAS$$

Where:

AS = the aggregate number of Adjustment Shares to be issued to the Ratchet Shareholder.

RSP = the Ratchet Share Price expressed in INR NIP = the New Issue Price.

RAS = the aggregate number of Ratchet Shares before the new issuance.
